

**APPENDIX C:
ONE CITY'S INDUSTRIAL SITE INVENTORY:
THE EAST PROVIDENCE COMMERCIAL/INDUSTRIAL
DATABASE**

One of the conclusions and recommendations in this report is the establishment of local and regional inventories of mill building sites. This has been attempted, with varying degrees of success, at the local, regional, and state level. One such inventory is the East Providence Commercial/Industrial Database.

The Database provides such basic information as property address and owner, owner's address, real estate agent and address, land size, assessed value, building size, occupancy and availability, utility service, rail access, and whether the site is located in an enterprise zone. A brief description of the property and a photo are included.

A listing from the Database is reproduced in this report on the next page.
